SRIKRISHNA HARSHA

9100444368

Hyderabad

krishnasutapalli368@gmail.com

PROFILE

Passionate robotics enthusiast with hands on experience in robotic simulation i am learning skills in ROS2, linux . eager to contribute to real world projects while learning advanced robotics concept

SKILLS

- Ros2 Python
- RVIZ , Gazebo
- Arduino
- machine learning
- ABB Rapid
- fusion360

LANGUAGE

- English
- Telugu
- Hindi
- marathi

CERTIFICATES

- data science course
- Tata iis robotics and automation
- doing Aurora robotics ROS2 Course

EDUCATION

- **Bachelor of engineering**   2018-2022

BE mechanical 7.0 cgpa
vasavi college of engineering
hyderabad

WORK EXPERIENCE

Startup experience   2022-2023

- tried to start an institue which integrated computer skills with engineering topics

nine education   2023-2024

- worked as a junior lecturer for physics and maths

PROJECTS

Big mart Sales Prediciton

- Built a regression model to predict Item_Outlet_Sales of 1,559 products across 10 store outlets using historical data.

Store Sales

- Developed a predictive model to forecast daily / weekly / monthly store sales using historical transaction data, promotional events, holidays, and store features

industrial robotics

- practise of abb robot rapid studio https://github.com/SrikrishnaHarsha
- many more in https://github.com/mbd129
